

Justine Shaw

(505-967-6759) - JustineShawArt@Gmail.com - JustineShaw.Art

A traditional 2D animator with a passion for illustration and all things animation! Experienced with character animation, effects animation, cleanup animation and 2D puppet animaton. Also experienced with stop motion fabrication and animation.

Collaborative Film Experience

Terrarium — 2D Animated Student Film

March-May 2023

Terrarium marked the beginning of my journey in 2D animated collaborative filmmaking. On this project, I refined my time management skills and adapted to feedback from directors and producers. Collaborating with a team of nine peers, we successfully transformed a concept into a polished one-minute film within a challenging 10-week deadline. My role centered on animation, where I conducted tests for both effects and character movements. This experience significantly advanced my expertise in character animation, effects animation, and the overall crafting of 2D animated films.

Wash Cycle — Stop Motion Student Film

March-May 2023

In my role with Wash Cycle, I was primarily responsible for constructing the costume for the stop-motion puppet. This opportunity provided valuable insights into costume rigging and allowed me to experiment with innovative techniques in costume creation. Close collaboration with the director ensured that the costume aligned with her vision, while working alongside animators helped optimize the costume’s design for smooth and unrestricted puppet movement, ultimately enhancing the animation process.

Netflix — *Stranger Things Extra*

July 2021 & August 2021

I had the exciting opportunity to work as an extra on several episodes of Stranger Things Season 4. During my time on set, I gained valuable insights into the production process and the extensive effort required to bring a live-action series to life.

EDUCATION

Savannah College of Art and Design -Major 2D Animation,

Minor Illustration for Entertainment

September 2020 - August 2024

Software

Toon Boom
Harmony
Procreate
Photoshop
After Effects
Dragon Frame

Skill Set

Illustration
2D Animation Cleanup
2D Character Animation
2D Effects Animation
2D Puppet Animation
Stop Motion Costuming
Stop Motion Fabrication
